	2024: The Year Ahead	26

Established in 2014, Healthy Seed is a charitable organization initiated and funded by the Lo Ying Shek Chi Wai Foundation to fill the service gap in Early Childhood Care and Development (ECCD) in Hong Kong. The early years of children (aged 0-6) are recognized as the golden period for brain development and growth. Bearing this in mind, Healthy Seed dedicates itself to inspiring stakeholders to seize this golden period and help children unleash their full potential. The ultimate goal of such efforts is to enable children to attain all-round development in five domains: physical, cognitive, communicative, socioemotional, and adaptive.

As of 31 December 2023, our unwavering dedication has benefited over 110,000 children and empowered approximately 33,000 parents and caregivers with the skills and knowledge they need to nurture happy and healthy kids.

We do this through

ECCD Training Programs

For parents, we offer classes and workshops to promote positive parenting practices and to help parents develop the skills and knowledge they need to raise happy, healthy children.

For professional caregivers and schools, we provide train-the-trainer services and encourage them to conduct parenting education in their community to benefit more parents and children in Hong Kong.

Online Resource Platform

At the social level, we produce multimedia content that covers a wide range of topics related to parenting. We upload this content to online platforms to create a comprehensive parenting database that is accessible to everyone. In addition, we collaborate with various media outlets to raise public awareness of the needs of parents and young children. By working together, we hope to create a supportive environment for families and promote the healthy development of children.

Our Core ECCD Training Programs

HOPE-20 Parents' Group

(18 x 2-hours sessions)

This is our signature parent education program designed for parents with children aged 2-3. It comprises 18 two-hours group sessions that enhance parents' knowledge and skills to advance family well-being. The sessions cover strategies to enhance parent-child relationship; to facilitate children's learning and language development; as well as to encourage positive behaviors while handling inappropriate behaviors.

HOPE-20 Train the Trainer

(4 x 3-hours sessions)

The "HOPE-20 Train the Trainer" program offers tailor-made in-house training courses and workshops for kindergarten/nursery staff, social workers of schools and NGOs. The program is designed to help participants make use of HOPE-20. We also offer on-site intensive mentorship for parenting practitioners to assist them in organizing HOPE-20 sessions at their schools/centers.

Parenting Workshop

(4 x 2-hours sessions)

Our "Parenting Workshop" focuses on enhancing the parent-child relationship. We educate parents on positive psychology, personal growth, and emotion management.

Parents' Talk

(1.5 hours)

"Parents' Talk" offers parenting tips for parents and caregivers with children aged 0-6. Our tips cover a wide range of topics, including improving parent-child relationships, recognizing and managing parents' emotions, and co-parenting with grandparents.

Service Coverage (For the year ended 31 December 2023)

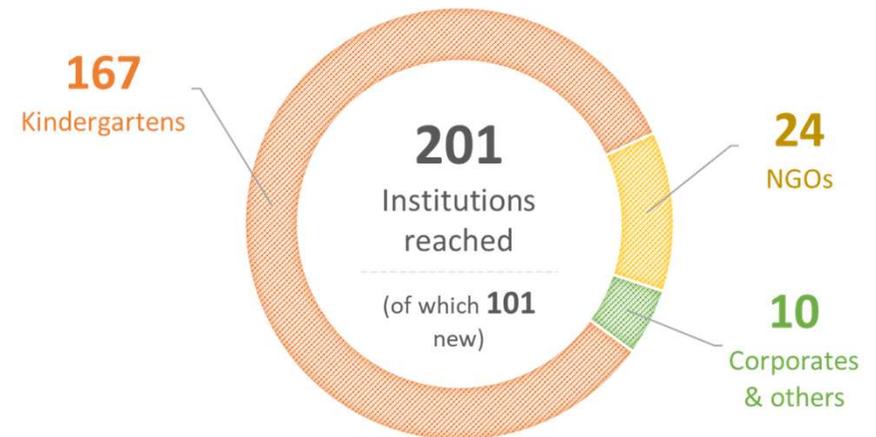

In addition to conducting training at the Healthy Seed center, we also make every effort to reach out to parents all over Hong Kong. During the year ended 31 December 2023, Healthy Seed conducted a total of 725 training sessions. Of these, majority were conducted in collaboration with various institutions across Hong Kong, including schools, NGOs, corporations, and churches.

What's NEW

Special support for Working Parents

At Healthy Seed, we understand that many working parents need to balance work and family affairs. In response to feedback from our working parents, we introduced special support for them in 2023. This support is designed to help working parents overcome the challenges of parenting. These services not only focus on working parents but also extend to their caregiver partners, such as grandparents and foreign domestic helpers.

Grandparenting

Many working parents rely on grandparents to help care for their children. However, there is a lack of training in our society that focuses on grandparenting. To address this need, we have organized workshops tailored for the elderly. These workshops aim to help grandparents understand the growth needs of modern children and adopt positive and effective parenting methods, thereby establishing a harmonious multi-generational relationship.

Lunch & Learn

Online classes are held during lunch hours, which is a convenient time for working parents. This means that they can attend the classes without having to take time off work or from their busy schedule.

Corporate outreach

We collaborate with companies to organize “Lunch & Learn” sessions for working parents that are held at their workplace. These sessions aim to promote the physical and mental well-being of employees, while also helping working parents manage the stress of balancing work and family.

What's NEW

"Happy Family" program

The family is the first and most important place for lifelong learning and has a significant impact on a child's growth. Therefore, a happy family is a crucial factor in a child's development. In light of this, Healthy Seed has established the "Happy Family" program that aims to help parents learn positive discipline, establish harmonious relationships, and cultivate a grateful heart. It also aims to build intimacy between parents and children.

Harmonious relationships To learn how to live in harmony with your family

Positive Discipline Learning to discipline the children without hitting or scolding.

Gratitude Cultivating an attitude of appreciation, gratitude, and contentment. Cherishing your family is also essential.

This course includes three parent gatherings, each themed around the three elements mentioned above, and one parent-child activity.

What's NEW

Internship Program

We are excited to announce the launch of our new internship program, which is a collaboration between Healthy Seed and universities in Hong Kong that offer social work programs. The internship is designed to provide students with practical experience and training in the field of Early Childhood Care and Development. Our program offers students the opportunity to work with experienced social workers in the field, gain hands-on experience, and develop their skills. We believe that this program will be an excellent opportunity for students to gain valuable experience and prepare for a career in ECCD.

Our first intern arrived in Sep 2023

Bachelor of Social Sciences in Social Work
3rd year student

- Contributed to the creation of two new training courses for parents.

**We are looking forward to
welcoming more interns
in 2024**

What's NEW

HKCSS Hong Kong Social Service Expo 2023

On 15 February 2023, Healthy Seed participated in the “HKCSS Convention cum Hong Kong Social Service Expo 2023” organized by the Hong Kong Council of Social Service.

During the event, we introduced our diversified scope of services to visitors, including parenting education and training, online resource platforms, and collaboration with media partners. We also had the opportunity to meet many potential partners on many fronts.

The event was a great success, and we are proud to have been a part of it. We believe that our participation in the event will help us reach a wider audience and build stronger relationships with our stakeholders.

Online Resource Platform

Spread the word using different channels

Healthy Seed's online resource platform provides practical information about positive parenting skills and healthcare advice from professionals. We use various social media platforms to disseminate information, communicate with different organizations and individuals, and promote the importance of positive parenting.

Key Initiatives (During the year ended 31 December 2023)

What's NEW

Content tailored to meet the needs of our audiences

The Healthy Seed website offers a comprehensive range of professional and practical child care information to cater to parents' needs. This year, the website has introduced new elements as follow:

Support for Working Parents Series 支援在職家長系列

Working parents today face the challenge of balancing work and family. To cater to their need, we have established a new section that provides online learning resources for working parents. Additionally, the 「育兒資訊搜尋器」 (Parenting Information Search Engine) now includes dedicated sections for 「外傭實用資訊」 (Parenting tips for Foreign Domestic Helpers) and 「長者湊孫實用資訊」 (Practical Information for Grandparenting), which feature articles and videos from government and professional organizations. These resources are designed to help caregivers gain a better understanding of proper parenting techniques.

Parenting FAQs 常見育兒問題

Parenting can be challenging, and parents often face a variety of problems. Finding appropriate solutions quickly can be difficult. To help with this, we have introduced a new section called 「常見育兒問題」 (Common Parenting Issues). This section lists the 10 most popular parenting issues and provides corresponding information and advice at a glance. This makes it easier for parents to search and learn about the respective topics.

Super Daddy (edited version) 超級奶爸

“Super Daddy” is a TV reality series produced by Healthy Seed in the past. The positive parenting techniques presented in the series are still relevant to the cohort of new parents nowadays. Therefore, we have edited and re-aired the series through our online resource platform this year.

What's NEW

Three new partners to broaden our contents

Healthy Seed is committed to collaborating with various professional groups and non-profit organizations. By bringing together experts from different sectors, we aim to provide the public with more extensive and comprehensive parenting and health information. This year, we have added the following new **content partners** to our network.

Health information is often the topic that parents are most concerned about. This year, we have partnered with The Hong Kong Red Cross to provide parents with timely and practical health information.

In conjunction with the launch of the new section “Practical Information for Grandparenting” on our website, we have partnered with the Hong Kong Family Welfare Society (Women and Family Enhancement Center) to provide advice on grandparenting and tips on communication across generations to build a positive and harmonious family.

We have stepped-up our collaboration with the Center for Child and Family Science of the Education University of Hong Kong (CCFS EDUHK). As part of this partnership, multimedia contents from CCFS EDUHK’s “Take a SIP” project and “親職教育 Level Up” application are now available on the Healthy Seed network. These resources are designed to help parents acquire positive parenting skills and improve parent-child relationships.

What's NEW

Two projects to better engage with our audience

Photo Contest

The Happy Kids photo contest was held in early 2023 with the theme of “happiness”. The contest aimed to share the simple and pure happiness of children with the public. Each submission captured the happy faces of children from different perspectives.

KOL initiative

Our seasoned social workers are positioned as Key Opinion Leaders (KOLs) to give our brand a human touch and establish a personal connection with our audience. They host and present content that are relevant and engaging, and share them through various social media channels, including Facebook, Instagram, and YouTube. We believe that this initiative will help us reach a wider audience and build stronger relationships with our stakeholders.

Testimonials – from Schools

我們參加了貴機構本年度舉辦的「正面管教有妙法家長小組」，內容取材自教兒樂家長培訓課程管教內容。這個家長小組十分適合本幼稚園家長的需要。我們亦十分感謝貴機構可以派出資深導師為家長提供服務。

每一位導師經驗豐富，都能按着自己的背景、經驗、演繹方式和技巧，將這套課程清晰地教導家長。

天水圍宣道幼稚園 周主任

非常好，冇得彈

專業同工培訓由李淑輝姑娘資深同工作個別督導，當中於小組技巧的應用及如何運用小組dynamic去為家長建立社交支援網絡，已超越了教兒樂訓練。

另外亦參加了吳彩暉姑娘及黃家嘉姑娘的講座，三位資深導師的風格各有特色，內容及技巧亦非常有質素。

崇真會駐校社工 郭姑娘

負責職員主動與駐校社工配合，以致學校能夠接收到有關中心的資訊，令學校可以於網絡平台上向其他家長發放育兒資訊，令更多家長受惠。

學校教職員、駐校社工以及小組家長，均認為導師表現卓越，其生動及幽默的說話技巧令家長全程專注，導師亦與家長建立良好關係，很快掌握了每位家長的特點，並經常給予家長管教上的建議，正面地鼓勵家長在日常中實踐，導師的智慧和經驗及專業為推動整個小組的關鍵。

路德會包美達幼兒學校駐校社工 林姑娘

我們對慈慧幼苗的服務質素感到非常滿意。你們與學校的配合使我們可以方便地參與這些活動。慈慧幼苗的網站資訊豐富，為我們的育兒之旅提供了寶貴的指南。

非常感謝你們舉辦的教兒樂課程。我曾有幸以老師的身份參加，再以家長的身份參與此活動。這些活動不僅提供了我們寶貴的教育知識，更重要的是，讓我們這群家長能保持聯絡，共同學習和成長。感謝你們的努力和付出，期待我們未來能有更多的合作機會。

Supporting Organizations

Healthy Seed collaborates with professionals and experts from different organizations and groups to ensure its services and information are trustworthy and authoritative. Amongst our partners, Hong Kong Christian Service manages the arrangement of instructors and program planning of “HOPE-20®”, “Parenting Workshop”, “Parents’ talk”, and “Staff Development”. The Department of Paediatric and Adolescent Medicine of Li Ka Shing Faculty of Medicine at The University of Hong Kong has been providing answers in response to the questions of children healthcare issues. The professionals and experts are engaged in writing or reviewing parenting articles. They also assist in the production of related multimedia content. Meanwhile, some of them have lent their support by kindly authorizing Healthy Seed to make use of their research findings or publications. All their contributions have enhanced the practicality of Healthy Seed’s content relating to positive parenting and have enabled it to provide comprehensive child-rearing advice for the public. Healthy Seed would like to express its gratitude to the following organizations for their support:

Media Partners

Healthy Seed wishes to bring positive, professional and practical parenting knowledge to the public and parents. In addition to managing our own social media platforms, we are expanding our distribution channels to reach more audiences. By doing this, we hope to equip the public with the appropriate skills for their parenting journeys, and ultimately, to facilitate their children's all-round development and create a pleasant social environment filled with positive energy. Healthy Seed would like to express its gratitude to the following media for featuring its parenting information:

Initiatives in the pipeline

Healthy Seed Happy Baby App

The Department of Paediatrics and Adolescent Medicine of Li Ka Shing Faculty of Medicine at The University of Hong Kong and Healthy Seed have collaborated to create the “Healthy Seed Happy Baby App”. This multi-functional and user-friendly application provides free guidance for parents of infants aged 0-36 months to enhance their parent-child interactive experiences and facilitate the mental health and physical development of their children. Parents can track and record their children’s growth and development in the baby grow diary, assess information about their children’s development at each critical milestone with the help of the grow chart and index, and obtain valuable information about the development of infants’ motor, language and social skills from the demonstration videos directed by an expert team of paediatricians, clinical psychologists, physiotherapists and speech therapists. The application also features an intelligent reminder which brings fun and interesting activities to parents’ mind, facilitating their parent-child interaction.

E-learning course

The e-learning platform will allow caregivers to learn about positive parenting at their own time and pace. The platform will provide a comprehensive curriculum derived from the HOPE-20 program. The curriculum will be designed to be engaging and interactive, with videos, quizzes, and other multimedia content. Caregivers will be able to access the platform from anywhere with an internet connection, making it easy to fit learning into their busy schedules.
